

Permit Application For Fence

Please allow at least 72 hours for permit to be issued.

1. **Attach a plot plan or use one of the diagrams on the back of this form marking where fence will be placed. Corner lots may have certain restrictions, please verify with the Town.**
2. **All Street, Sidewalk, and Perimeter Facing Fences Must Be Smooth Side Out.**
(Rails must be facing in towards yard)
3. **Property lines must be located and fence placed accordingly; Failure to do so could result in fencing having to be moved or re-moved.**
4. **It is the homeowner's responsibility to call for utility line locates (1-800-922-1987).**
5. **By signing below, you hereby acknowledge that you have read this application and agree to build this structure according to the UNIFORM BUILDING CODE, The Town of Firestone's ORDINANCES, and your H.O.A. COVENANTS (if applicable).**

Please select the diagram below that best represents your home and lot. Place “X’s” where you will be placing your fence and indicate distance from sidewalks if applicable. It is the responsibility of the homeowner to submit plans to their HOA, build fence according to approved fencing detail & material for their area and insure that their fence is placed appropriately. Fences are not allowed to go beyond the front of the house.

The Town is NOT responsible for enforcing HOA rules & covenants

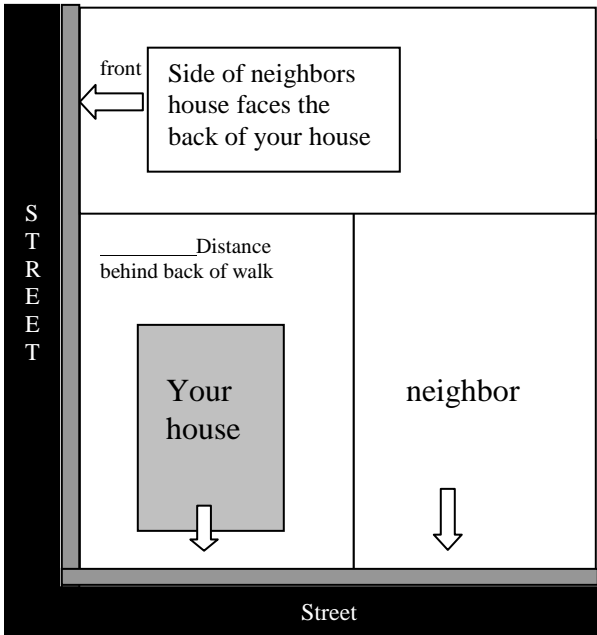

Interior Lot

Corner Lot

REVERSE CORNER LOT

REVERSE CORNER LOT:

Definition: Your side yard runs into your neighbor's front yard

You may have a 42" fence with 50% visibility placed 4 feet behind the sidewalk to continue back half the distance of the front setback of the home behind you and then graduate up to the allowed semi-privacy or privacy fence. (verify type of fencing allowed for your area)

If you choose not to install the 42" fence, you can install only the approved privacy fence placed at the appropriate setback; this will also include the 4 feet a fence is required to be placed behind a sidewalk.

Example: The front setback for homes is 20', half of that is 10'. Add the 10' to the required 4' setback from behind the sidewalk, your fence must be placed at least 14' behind the sidewalk.
